

Dear { } / Dear boss,

I am reaching out with a kind request for financial support to join the **GameQuality.org Membership**. There are very few professional communities on the web that are dedicated specifically to games QA. As the market continues to evolve at pace, it is increasingly important for me to stay connected with other professionals.

Game Quality membership offers a ticket to Qualicon - the two day online conference, created *for* QA, *by* QA - regular professional development content and access to five years of talks and presentations in the member video vault. In addition, there is access to a member-only Discord server as well as the opportunity to collaborate with peers on cross-industry initiatives.

Their program of content and member initiatives are designed, curated and delivered by game quality professionals, in line with their founding principles:

- Sustainably advancing the game quality discipline
- Nurturing and empowering the next generation of game quality leaders
- Improving game quality through effective cross-discipline partnerships
- Advocating game quality as a key driver of value
- Championing diversity, inclusivity and improved quality-of-life

**Benefits and skills I will contribute to our in-house work:**

- **Enhanced Quality Assurance:** Access to specialized training and resources within the Game Quality Membership will allow me to implement advanced quality assurance methodologies, ensuring a higher standard of product quality.
- **Reduced Risks and Costs:** With a deeper understanding of potential issues and effective testing methodologies, I aim to contribute to minimizing risks associated with game development, resulting in cost-saving measures for the company.
- **Up-to-Date Industry Insights:** By staying connected to a community of experts and sharing knowledge from the Game Quality Membership, I will provide valuable insights into the latest trends and industry best practices, ensuring our products remain competitive.

**Costs:**

- ▶ Game Quality Membership Pro: USD 349

Thank you for considering this proposal. I look forward to discussing the potential benefits in more detail at your convenience. For further details, kindly refer to the link attached: <https://gamequality.org/membership-2/>

Best regards,
